

# IVIG or Saline Placebo Participant Schedule

Keep this schedule in a safe place so you can refer to it throughout the study.

## STUDY ACTIVITIES: About 12 months (1 year)

### Pre-Study Period (3 weeks)

<p><b>Baseline Visit (about 5.5 hours)</b></p> <p><b>Date:</b></p>	<p><b>Information</b></p> <ul style="list-style-type: none"> <li>• Review current medicines</li> <li>• Review study requirements</li> <li>• After this visit, complete a survey about how you are feeling</li> </ul>	<p><b>Assessments</b></p> <ul style="list-style-type: none"> <li>• Surveys</li> <li>• Blood sample</li> <li>• Nasal swab sample</li> <li>• Skin samples</li> <li>• Physical ability tests</li> <li>• Safety check</li> <li>• Pregnancy test, if needed</li> <li>• Autonomic nervous system function tests (only at specific sites)</li> </ul>	<p><b>Receive</b></p> <ul style="list-style-type: none"> <li>• Fitness tracker</li> <li>• At-home stool (poop) sample kit</li> <li>• Coordinated non-drug care group             <ul style="list-style-type: none"> <li>– Blood pressure and heart rate machine</li> <li>– Salt measurement spoons</li> <li>– Water bottle</li> <li>– Compression belt</li> <li>– Yoga mat</li> <li>– Latex stretch bands</li> <li>– Physical activity training guidelines</li> <li>– Weekly activity log</li> </ul> </li> <li>• Usual non-drug care group             <ul style="list-style-type: none"> <li>– Magnet with guidance on lifestyle and diet changes</li> </ul> </li> </ul>
--	--	---	---

### Study Treatment Period (9 months)

<p><b>Begin Weekly Infusions of the Study Drug</b></p>	<ul style="list-style-type: none"> <li>• Visit the infusion center about once a week for 9 months (about 36 visits). The study team may make changes to your infusion schedule depending on how you react to the infusion</li> <li>• The study team will schedule you for all infusions</li> <li>• You will receive either IVIG or saline placebo through an intravenous (IV) needle at each visit, plus fluids and medicines to help prevent or reduce side effects</li> <li>• The study team will monitor your vital signs (such as blood pressure and heart rate) before and after the infusions</li> </ul>
<p><b>Begin Coordinated Non-Drug Care, If Assigned</b></p>	<ul style="list-style-type: none"> <li>• If you are in this group, you will be asked to complete a non-drug care log to record your activities at the end of each week.</li> <li>• Activities include checking your blood pressure and heart rate, eating salt, drinking water, wearing a compression belt, and completing physical activities.</li> <li>• A care coordinator will contact you once a week for 3 months to provide support on these activities</li> </ul>

## Study Treatment Period (9 Months), continued

<b>3-month Clinic Visit (about 1.5 hours)</b>  <b>Date:</b>	<b>Information</b> <ul style="list-style-type: none"><li>• Review how consistently you have completed the study treatment</li><li>• After this visit, complete a survey about how you are feeling</li></ul>	<b>Assessments</b> <ul style="list-style-type: none"><li>• Surveys</li><li>• Physical ability tests</li><li>• Safety check</li></ul>
<b>6-month Clinic Visit (about 1.5 hours)</b>  <b>Date:</b>	<b>Information</b> <ul style="list-style-type: none"><li>• Review how consistently you have completed the study treatment</li><li>• After this visit, complete a survey about how you are feeling</li></ul>	<b>Assessments</b> <ul style="list-style-type: none"><li>• Surveys</li><li>• Physical ability tests</li><li>• Safety check</li></ul>
<b>9-month End of Treatment Visit (about 5 hours)</b>  <b>Date:</b>	<b>Information</b> <ul style="list-style-type: none"><li>• Review medicines</li><li>• Review how consistently you have completed the study treatment</li><li>• After this visit, complete a survey about how you are feeling</li></ul>	<b>Assessments</b> <ul style="list-style-type: none"><li>• Surveys</li><li>• Physical ability tests</li><li>• Blood sample</li><li>• At-home stool (poop) sample kit</li><li>• Safety check</li><li>• Autonomic nervous system function tests (only at specific sites)</li><li>• Skin samples, if needed</li></ul>
<b>Follow-Up: End of Study (3 months later)</b>		
<b>12-month End of Study Visit (about 2 hours)</b>  <b>Date:</b>	<b>Information</b> <ul style="list-style-type: none"><li>• After this visit, complete a survey about how you are feeling</li></ul>	<b>Assessments</b> <ul style="list-style-type: none"><li>• Surveys</li><li>• Physical ability tests</li><li>• Blood sample</li><li>• Safety check</li></ul>
